

DEFOAMER

HAIL DEFOAMER is designed to eliminate foam problems in the water pick-up tanks when using extraction carpet cleaning machines. This foam is usually due to high foaming residues from previous shampoos. Use **Hail Extraction Carpet Shampoo** as a low foaming carpet shampoo. HAIL DEFOAMER can also be used to de-foam other water based foaming systems.

FEATURES

Economical

Effective

Easy to use

Safe

Versatile

BENEFITS

Only a small amount needs to be added to be effective.

Controls or eliminates foam instantly.

Easily disperses in water, use as supplied or dilute as required.

Will not damage the equipment or system in which it is used because HAIL DEFOAMER has a neutral pH.

Can be used to control foam in many water based systems.

Directions for use

Light cleaning

SHAKE WELL BEFORE USE. Normally add 1 part to 35-70 parts of solution directly into the water pick-up tank. For other high foaming systems, a small amount of undiluted HAIL DEFOAMER will usually be sufficient to control foaming problems.

Caution

When using HAIL DEFOAMER to de-foam other water based foaming systems, the user should check with the local water authority if using and discharging is on a large and frequent basis to drainage system.

Pack Size

Available in 4 x 5 litre cartons.
