

FLOOR POLISH

HAIL FLOOR POLISH is a blend of special acrylic polymers and waxes to provide a durable, detergent resistant deep gloss surface.

FEATURES

Hard wearing

Provides a tough, scuff resistant gloss finish which will withstand very heavy traffic.

Easy to maintain

The special acrylic polymers provide improved gloss and extended durability when the floor is regularly maintained using **Hail Spray Buff**.

Easy to remove

Metallised for quick and safe removal by applying **Hail Floor Polish Stripper**.

Versatile

Protects and enhances many surfaces including vinyl, thermoplastic, linoleum, sealed wood, sealed cork, rubber and pitch-mastic floors.

BENEFITS

Directions for use

Initial preparation - Sweep/vacuum the floor to remove dust and debris. Remove old polish or wax using **Hail Floor Polish Stripper**. Ensure the floor is clean and dry before applying HAIL FLOOR POLISH.

Application - Apply a thin even coat of HAIL FLOOR POLISH using either a lambswool applicator or preferably an Abudawood Flat Mop. Allow this coat to dry completely before applying a second coat. The polish will dry to a high gloss finish in approximately one hour. The floor can then be opened to traffic.

Floor maintenance - The polished floor should be regularly maintained using **Hail Spray Buff**. Use either mopping or spray buffing methods.

Coverage - 5 litres of HAIL FLOOR POLISH will cover approximately 370 sq. meters (4000 sq. ft.) with one coat depending on the porosity of the surface to be coated.

Pack Size

Available in 4 x 5 litre cartons.
