

HAILCOLIN HOSPITAL DISINFECTANT

HAIL HAILCOLIN HOSPITAL DISINFECTANT is a clear soluble phenolic disinfectant, but unlike most others is based on a blend of synthetic phenols which act synergistically to achieve an unusually wide spectrum of germicidal activity.

FEATURES

pH controlled

Biocidal activity

Safe

BENEFITS

HAIL HAILCOLIN HOSPITAL DISINFECTANT has a pH value of 9.5 which, under the normal conditions of dilution, falls to around 7.5. The dilutions remain stable over a wide temperature range and retain their germicidal activity over a long period of time.

Investigations over a long period both in the laboratory and of a practical nature have shown HAIL HAILCOLIN HOSPITAL DISINFECTANT to be effective against:

- All common Gram positive pathogens
- All common Gram negative pathogens
- Pathogens including *Pseudomonas Aeruginosa*
- *Mycobacterium tuberculosis*
- Pathogenic fungi
- Viruses of the Pox, Influenza and Herpes.

HAIL HAILCOLIN HOSPITAL DISINFECTANT has low oral and dermal toxicity.
