

Ecorinse M 127

MIRIFIC ECORINSE M 127 is a blend of low foaming nonionic detergents and alcohols which ensure excellent wetting and draining properties.

ECORINSE is injected into the final rinse water through the dosing systems to speed up drying of crockery and leave a sparkling smear-free finish. ECORINSE also acts as a foam dispersant in the machine wash tank.

FEATURES

BENEFITS

Economical

ECORINSE is a maximum cost savings.

Effective

ECORINSE gives a sparkling smear-free finish to crockery and promotes rapid drying.

Versatile

ECORINSE is suitable for hard and soft water conditions.

Easy to use

ECORINSE automatically metered into machine using the dosing system.

Un-perfumed

ECORINSE leaves no taint or smell on washed items.

Biodegradable

ECORINSE is completely biodegradable and does not affect the natural bacteria found in sewage systems.

Directions for use

ECORINSE must only be used with the automatic dosing equipment in combination with the MIRIMATIC range of automatic dishwashing liquid detergents. The amount of ECORINSE required will vary depending on the type of dishwashing machines, but the correct amount will be pre-set on the detergent feed systems. To obtain optimum performance from ECORINSE it is important that the temperature of the rinse water is within the dishwashing machine manufacturer's limits, usually between 80°C and 90°C.

Pack Size

Available in 4 x 5 litre cartons.
